

methylnitrogen transferase activity, transferring methyl groups from S-adenosylmethionine to various acceptors

lysine N-methyltransferase activity

protein-lysine N-methyltransferase activity

protein methyltransferase activity

N-methyltransferase activity

S-adenosylmethionine-dependent methyltransferase activity

histone-lysine N-methyltransferase activity

histone methyltransferase activity

histone methyltransferase activity

transcription coregulator activity

histone methyltransferase activity (H3-K4)

transcription corepressor activity

transcription coactivator activity

ubiquitin-like protein conjugating enzyme activity

nuclear receptor transcription coactivator activity

histone acetyltransferase activity

peptide-lysine-N-acetyltransferase activity

peptide N-acetyltransferase activity

N-acetyltransferase activity

dioxygenase activity

N-acyltransferase activity

acetyltransferase activity

iron ion
